Amateur Radio (ham radio) is a popular hobby and service that brings people, electronics, and communication together. You can use ham radio to talk across town, around the world, or even into space, all without the internet or cell phones. It's fun, social, educational, and can be a lifeline during times of need.

Parks On The Air

Parks On The Air (POTA) is a non-profit organization that supports the use of amateur radio in our state and national parks. Operators set up temporary portable radio stations and attempt to contact as many fellow hams as possible. The goals are to activate as many parks as possible and speak with as many stations as possible. Certificate awards are then given for various categories.
